

JUTLAND JOLLIES

You, believe it or not, People, are looking at the 10th installment in our continuing series of brilliant masterpieces, commonly referred to as JJ, a Glib Klib Publication whose editors are dedicated to the poop-ception. Subscriptions to it (for lack of a better word) are 10 issues for one dollar.

A few people have written to us enquiring as to what exactly are our Glib Klib privileges. Well, to be honest with you, we get 50 cents 10¢ per copy of 2¢ copies which the common people don't get. Don't know it, money adds up you know. Take Nelson for instance; rumor has it that he will be able to retire in 6 months.

Your editors, guessmates and whatever else you want to call them are:

Derek Nelson

Scarboro, Ontario,
CANADA
Phone 416-261-0574

Bob Lake
15 Estero-Rocke Ave.,
Willowdale, Ont. CANADA
Phone 416-449-0577

NOTE: Will all players in all games in JJ send their moves for next issue to Bob Lake. Nelson will probably not get published due mainly to the fact that he won't be around in order to get the moves to us in time. If he is not in Ottawa trying to overthrow the existing (and existing is about all it is doing) government and reinstate the Tories, you would probably find him in some pub between here and there working out his next set of diplomatic moves for one of the games he is in.

And now the Games:

SPRING 1964 MOVES ARE DUE ON OR BEFORE SATURDAY, 16 MARCH, 1968

Press Release:

CONSTANTINOPLE: It has come to the Sultan's attention that the Tsar of some of the Russias has expressed his extreme displeasure over the recent setbacks suffered by Russian arms. And in an attempt to nationalize, the Tsar has made accusations about the character of one John Smythe, who happens to be a lowly sanitation engineer in the Sultan's stables. Has the Tsar conveniently forgotten that it was he who declared war? Has the Tsar forgotten that it is he who is responsible for Russia's conduct of the war. Instead of making irresponsible remarks about innocents, who have nothing to do with the Russo-Turkish war, shouldn't the Tsar reconsider his contribution to Russia's current sorry state of affairs.

WINTER 1902 BUILDS, REMOVALS & RETREATS ARE DUE SAT. 16 MARCH, 1968

Press Releases:

ROME: Italian troops have entered the provinces of Savoy, Nice, Trentino Fiume, and the Dalmatian Islands and costal area to settle once and for all racial discrimination against Italian minority groups. These areas were taken from the Italian states in the last century when Austria occupied the Venetian Republic and France made a deal with the Kingdom of Sardinia and failed to fulfill it, but took Savoy and Nice anyway.

MONTREAL: (23 AUGUST) -- The United States First Army announces the capture of its enemy's largest city, Montreal. After only 32 days of war we pushed across the St. Lawrence and captured Montreal. The enemy made desperate efforts to stop our advance, however: polluting the river with low-quality Canadian bheer so that our finely bred troops would be repelled and be unable to continue was just the most nosticeable of their dastardly tricks. Our army intends to advance further into the heartland of Canada and return by winter.

SUGLUK (24 November) -- A brilliant campaign has brought the U.S. First Army, after its heroic capture of Montreal, to the EDGE OF CANADA. This tiny village marks the end of the land and the beginning of the sea at the northern edge of this desolate country.

SUGLUK (3 December) -- The U.S. 1st Army has realized that it is getting cold. WILL THE ARMY BE TRAPPED IN FROZEN SUGLUK FOR THE WINTER?? Tune in next issue for the thrilling answer. Brrrrr.....

CLEVELAND (14 OCTober) -- The U.S. Fifth Army's campaign against Toronto was set back several years when a new Canadian secret weapon was unleashed against us last week. Bheer, fermented for twenty years, used in gas shells, our chemists report with disbelief.....

WATERTON-GLACIER INTERNATIONAL PEACE PARK (1 November) -- The Waterton -Glacier International Peace Park has been desolated by a vicious U.S.-Canadian battle that has been raging here since last July. The Eternal Flame has been blown out and the great statue knocked down...some peace we get from the U.S. !!!

WARSAW: With the destruction of the pirates on the island of Bornholm by the combined assault of the Tsar's Hussars and the First Northern Squadron the Russian Government has decided to remove the Hussars from Prussia and base them in Sweden. The Third White Army has been instructed to investigate the present power vacuum in Berlin. This will be done in the spring of next year when the First Northern Squadron completes its present task.

GEORGETOWN; British Guiana (23 September) After a brilliant campaign through central America, the United States Third Army has proved the validity of the Monroe Doctrine by overrunning the last foreign-controlled country in the Western Hemisphere: Of course, Mexico, Guatemala, Salvador, Nicaragua, Costa Rica, Panama, Colombia, and Venezuela did suffer a few damages on the way...However, the course of freedom must not be impeded. They should be glad to be liberated from cruel national governments to be subjected to the fair and honest rule of the United States Military Police. On the way down here, General Theodore Roosevelt, balancing himself carefully so as to keep on Panama and not fall into one of the oceans on either side, had the idea of building a canal across the isthmus. Thus 5,000,000 native workers were recruited to dig a hole in the isthmus. Progress is being made and the canal should be ready for use in two years.

MURMANSK: Convoy lines with the United States have been cut by British cruiser attacks off the coast of Iceland. To reply to this illegal act on the high seas the Russian Government has bought 94 frigates from Belgium for 10 million crumples. Eighty seven of the frigates will be sent to the Moscow Childrens' Amusement Park and Fun Center. The other seven ships will be sent on convoy service in the North Atlantic.

VERSAILLES, (25 December) There is fear here and elsewhere on the Continent that the Bheer war, raging since July in the Americas and Asia, may spread to Europe. It seems a force of American Irish have landed in Ireland to liberate their ancestral home. Ulstermen, outraged, have been fighting the expeditionary force for three days near the small village of Loughrea. The result is in doubt, but the unmistakable weapons of the bheer war have emerged... low-quality bheer used to stink up evacuated areas, for instance. All Europeans pray for peace... we have our own wars to worry about without some coarse Americans lousing it up and turning it into a world war.

VERSAILLES (3 December) -- The King of France, Coleman I, today announced the ratification of a new treaty with England. "Putting aside our past differences," he said, "we must turn to face the new danger of Germany with courage and devotion, with rationality and thought, with loyalty and perseverance. Germany can be overcome. Germany must be overcome. Germany shall be overcome!!" The fight against Germany, he predicted, would be long and difficult, but he also said that right must triumph in the end.

Concluding, he summed up with the traditional end of French Royal statement. "But fear not; loyal Frenchmen! The Royal Government marches on, does not flag or fail, does not cry for quarter, does not give up Frenchmen's lives in vain! Vive le Roi, vive les francais, VIVE LA FRANCE!!!"

FALL 1902 MOVES ARE DUE ON OR BEFORE SAT. 16 MARCH, 1968

Press Releases:

LONDON: Mr. Burke is quoted as saying: "It is my objective to keep the French infection from this country; their principles from our minds, and their daggers from our hearts. When they smile, I see blood trickling down their faces; I see that the object of all their cajoling is blood! I now warn my countrymen to beware of these philosophers, whose only object is to destroy everything that is good here, and to establish immorality and murder by precedent and example."

Mr. Burke, the Prime Minister, is widely suspected of being hostile to France, but has said nothing definite on that subject yet. However, he will not deny the reports of his speech which is quoted in the Parliamentary History, Vol. XXX, p. 189.

BERLIN (1 January 1902): King Stefan III regrets to inform the Russian Government that because of their invasion of Sweden, they have committed an act of aggression. "We therefore must retake Sweden, and set free the poor peasants." King Stefan III reported that he and Field-Marshal Rudolf von Janprince would accompany the Prussian Foot-Cavalry into Sweden.

NAPLES (March 12, 1902): Official Communique Italian scientists announced, with deep regret, that they must disagree on the new location of the center of the world. After months of exacting reserch, they have come to the conclusion that their learned colleagues in France and Germany have erred. The center of the world is Switzerland, not Luxembourg.

This is a very small error for such matters, and countries not possessing the most advanced Italian equipment could hardly expect to come closer than they did to the center of the world. It is, however, agreed here that the greatness of a country is proportional to the distance from the center of the earth (ie Switzerland), that greatness diminishing as the distance increases.

ROME: The Grand Norm announced that this war has become for Italy a Holy War. Italy shall be friendly only to those countries containing a certain minimum percentage of followers of Normanism (The Faith) and shall endeavor to crush all other countries, preparatory to converting the citizens to The Faith. Please note that France, southern Germany, and western Austria-Hungary all contain a sufficient number of Normanists. Statistics on Turkey and Russia are still being compiled. England, unfortunately, does not contain any Normanists at all.
